

Directions to Historic New England Haverhill Facility

151 Essex Street, Haverhill, MA 01832-5564

Take 495 North to Exit 49 "River Street" Haverhill. Turn right at the top of the exit onto River Street. Drive about two miles into the center of town and take the second left after going under the railroad overpass onto Essex Street. If you pass the post office (on your right) you have gone too far. The Haverhill facility is located about four blocks ahead on the right just before you go under the railroad again. The address is 151 Essex Street.

Parking is available in Historic New England's gravel parking lot or in the paid public parking garage across from the Haverhill train platform. See map below. The entrance to Historic New England's gravel lot is the first driveway on the left past the overpass and it will be marked with an event parking sign. Please do not park in other lots on the street as they are privately owned and are restricted.

Historic New England's offices are located on second floor of the facility. Enter the building through the front (corner door, marked 151) and walk up or take the elevator to the hallway landing on the second floor.
